Sudbury Sampler

Photos by DCJ

The beauty of this season is lost to us because of the hurricane-stripped trees but inland a bit the color is something very special. This week the color in Rochester, Acushnet and Lakeville should be spectacular. A bit farther north in Sudbury, Lexington, and Concord the autumn is in its full glory right at this moment.

The old mill across from the Wayside Inn is the gathering spot for most of the tourists who travel in that direction because it is such a handsome backdrop for the beauty of the foliage. The old grist mill with the waterfall, on our cover and page 2, was the creation of Henry Ford who originally intended to build a colonial village on this site to surround the Wayside Inn which had survived from colonial days. The project results in the mill, the Mary had a Little Lamb schoolhouse, and the Martha-Mary Church before Henry Ford changed his plan and built his colonial village in Dearborn, Michigan. In recent history, the Wayside Inn burned to the ground. It was restored so perfectly that anyone would have a difficult time in detecting the difference between the restoration and the original.

The grist mill has all the machinery in working condition and is open to the tourists

front door.

The Martha-Mary Church is probably one of the busiest of any in the country with weddings because of its classic New England beauty. It sits on the knoll of a grass-covered hill with gleaming white spire reaching into the blue sky. A red brick path is constantly in use by the friends attending the weddings that take place.

To the side and in the rear of the church

Peggy Trott, as the school teacher, presides over lessons in the Little Red Schoolhouse in Sudbury. It was in use by the town until 1927 by permission of Henry Ford.

is the one-room schoolhouse actually attended by Mary and her lamb. Henry Ford brought the schoolhouse here and installed it as an example of the way children of the 1800s were educated. Four grades were taught in this very small building by one teacher. Because the people were farmers the school was used in the summer by the smaller of the children who went to classes in the spring, summer and early fall. The parents, working in the fields sowing, growing, and gathering the crops, did not have the time to watch the small children so this method kept them

The teacher was paid $7. per month and the parents took turns boarding and feeding her. This close contact had the effect of making the discipline in the classroom a little easier, according to Peggy Trott who, on Columbus Day weekend, played the role of teacher. As visitors filed in, she sat them down in the snug fitting desks, called them to attention and put them through the exercise of recitation and memory training as was practiced in the colonial period with a no-nonsense control and discipline. school and the poem was written by a visiting minister, John Ralston, who witnessed the event and was amused. It would have been forgotten in the dusty cracks of history had not the authors of McGuffy's reader heard of the poem. They thought it was too short so Sarah Hale added more lines to make it longer and it was incorporated in this primary textbook of that day and every scholar of that period used the poem as a tool to learn to read and write.

MATTAPOISETT SELECTMEN'S MEETING
OCTOBER 15, 1991-by VIRGINIA MORGAN

Proposing to operate on a smaller bare-bones budget, the Recreation Committee and selectmen are hoping the voting public will support an article on the tentative December 2nd special town meeting warrant for $11,000 - a cut of about $10,000 from the original amount requested at the annual town meeting.

Rick DeTucci, chairman of the Recreation Committee, and Charles Homer of the MYAA (Mattapoisett Youth Athletic Association) gave selectmen a revised budget request that will give a winter basketball program for boys and girls through June 1992 and a summer baseball program. The chairman explained 226 youngsters participate in the winter program, and that the $11,000 will cover $5,000 for a director as opposed to $6,450 and $2,948 for a part-time person under the previous request. Under expenses, maintenance of $1,000 was cut, postage, $50.; advertising,

$100 were all cut. Professional services for referees were reduced from $6,000 to $5,000 and equipment costs were reduced from $3,000 to $1,000.

Mr. DeTucci explained the director is important to control coordinating programs in the winter months and to initiate Little League games next spring. Referees are necessary and cannot be done properly with volunteers. Parental problems develop when there is no director to ensure that all youngsters get to play, said the chairman.

Mr. Homer said that ninth graders and junior high students from Old Rochester Regional will be involved in the basketball program, partly because of the reduction in the programs at the regional high school due to budget cuts. "It's worth it for the kids, it keeps continuity for the programs", he said.

Selectman Daniel O. Mahoney explained there is zero for free cash. "At least we should make a presentation at the special town meeting and seek the public's support for the recreation programs." Selectmen Chairman John DeCosta said the board supports the revised budget of the recreation committee and will do so on town meeting floor. He added the Finance Committee is in the process of determining where addition-

The appointments were made jointly by School Committee Chairman Peter Hodges, Board of Selectmen Chairman John DeCosta and Moderator R. William Blasdale. The names of Stephen Hanna and Osmond Gingras were also submitted for consideration to the posts.

Mr. DeCosta said these two were recommended last week by the finance committee. penses for Mr. Bobola.

Mr. Bobola expressed concern for his absence so close to the aftermath of Hurricane Bob; however, sleectmen agreed Assistant Inspector Ray Hanks can handle town business during Mr. Bobola's absence for one week.

The board felt the opportunity to participate in the training program would be worthwhile and benefit the town. Mr. Bobola explained in his letter the course will include a hands-on construction inspection of the newest flood plain foundations, designing of plans, review of plans and would be a great help in the rebuilding phases after the hurricane.

WERE NOTIFIED by GeoSystems, Inc. that monitoring wells have been placed on Mechanic Street (town-owned property) to continue the environmental assessment of the Mobil Station at 37 County Road (Route 6). Although the wells have been started, the company needed the town's permission to proceed. This monitoring well and others on private property have been approved by Water/Sewer Superintendent William Nicholson and Highway Surveyor Wesley Bowman and they will not interfere with water or sewer lines.

It doesn't look like sunscreen. But it is. Because this high-tech film blocks up to 99% of ultraviolet rays. Rays that ruin fabrics and furniture. The way they damage your skin.

LLumar® is a transparent window film that chemically bonds to the glass. It helps prevent fading, but lets light shine through. So LLumar protects what's inside, without blocking your view outside. That's why it's the clear answer.

Bartimaeus was a blind beggar who had been avoided by many on a day when Jesus stopped for him. As he restored this man's sight he told him his faith had saved him. We marvel at the story, yet do not believe this healing can belong to a blind man who stands on a city street with his cup out. Is God not at work among segments of our society where suffering is intense? And within ourselves, is God present to move beyond the emotions, traumas, and events threatening our spiritual health? The title of the sermon at the Mattapoisett Congregational Church this Sunday will be "Which Version Do We Believe?"

Our worship service begins at 10:00 a.m. and all are welcome to join us.

Chapter I, ORRJHS

GET ACQUAINTED NIGHT

On October 29th at 7:00 p.m. at Old Rochester Regional Junior High School, parents will have the opportunity to meet with Chapter I staff, view the Reading and Math labs, and ask questions concerning the Chapter I program, and the role it plays in their child's life. Debra Haskell, an experienced Reading specialist, will be working this year with returning Chapter I instructional aides Judy DeMailly and Sandy Reynolds.

Parental involvement is the cornerstone of Chapter I. There are many ways parents can become involved, and the Parent Advisory Council will be outlined for parents at the meeting. Parental involvement however can range from parents being involved with their own children to actively building home/school relationships. Parents are invited.

SIGN LANGUAGE COURSES

The Friends of the Elderly will continue to sponsor Sign Language courses, both adult and Saturday morning classes for children. Textbooks for the adults have been donated by the Mattapoisett Lions' Club and the textbooks for the children have been donated by The Friends of the Elderly of Mattapoisett.

If the need is there, but a parent cannot afford the $50.00 fee, we are constantly trying to obtain sponsors. At the present time, our sponsors have been St. Anthony's Church Guild, the Acushnet Teachers' Association, and our most recent sponsor, The Telephone Pioneers of America (Pilgrim Chapter).

The Friends wish to personally thank Ann M. Mullen of the Telephone Pioneers of America for her time and effort. Thanks to her, two more children are learning sign language.

Anyone interested in future classes may contact Vivianne Surprenant at 758-6451 or Nancy Fleming at 758-6900.

Recycling Counts

As you know, Mattapoisett's rubbish contractor will no longer pick up any leaves, hedge clippings, pine needles or garden waste. These items must be taken to the compost area at the town landfill.

Important also to note is that only these items may be composted. All other "trash" must be kept out! Recently some bags of household trash, including mail, were found in the compost area. This "trash" is not accepted there.

Compost may be transported to the area in any containers. After emptying the containers, either take them home or place them in the provided receptacles. No containers of any kind belong in the compost.

The Recycling Committee thanks you for following the regulations.

NEWSPAPER COLLECTION

The next newspaper collection will be in November. September's numbers are in - over 10 tons of newspapers! We ask that you tie your newspapers in bundles - do not bag them. Please remember NEWSPAPERS only!

"Women's health issues involve an emotional as well as a physical component, and I try to deal with all of these things when treating my patients. I try to get to know whole families and get information about people's lifestyles and what kinds of stress they're under. I focus on people's habits, their diet, do they exercise, etc. All of these things will affect their health.

"I look at myself as a true primary care physician", she explained. "Most people are basically well and need guidance on how to take care of themselves so they won't end up in the hospital. I think there's a real role for this type of medicine and it's an important role."

A member of the American College of Physicians, Dr. Melancon is board eligible.

To accommodate patients who work she plans to offer Thursday evening as well as daytime office hours. Her office is part of Tobey Medical Associates, in Church Cove Office Park, on Church Street in Wareham.

Chinese Magic Revue

AT ZEITERION THEATRE

Their show has been called "incredible", "breathtaking", "stunning" and "Quite unbelievable" by critics around the world. THE CHINESE MAGIC REVUE is rapidly taking the world by storm, and will be at New Bedford's Zeiterion Theatre on Saturday, November 2nd, at 8:00 p.m. New Bedford's daily newspaper, the Standard-Times, is sponsoring this oriental spectacular, a show for the whole family.

The Chinese Magic Revue offers more than a glimpse into the fascinating Orient. It consists of the sensational Chinese acrobatics, comedy, balancing feats, Kung-Fu, Chi-Kung, Chinese traditional dances, magic and much more.

The grace and precision of the acrobats are the result of years of dedicated training and discipline, but their art was formed by centuries of tradition.

Chinese acrobatics are, in fact, more than a series of stunts because they clearly demonstrate the achievement of perfection through the harmony between the body and the mind - an ancient concept in the Orient. The show also features Kung-Fu and Chi-Kung demonstrations - extraordinary feats that seem to defy physical laws - which the Chinese attribute to the cultivation of "Chi", roughly translated as "inner strength" or "life energy".

TRIP AND COURSE FOR 1992

Celebrate the quincentenary of Columbus' westward voyage by joining Dr. Giulio Massano, chairperson of the Department of Foreign Languages at the University of Massachusetts Dartmouth, in a ten-week course and/or a two-week tour of Italy, Portugal and Spain.

Massano, a professor of Spanish and Italian, has planned a May 15-29, 1992 itinerary that includes every place significant to Columbus' development as a navigator and explorer, including Lisbon and Algarve, where his early formative years were spent.

The tour includes roundtrip airfare, four and five-star hotels, most meals and entry to museums. For cost, reservations and further information telephone Massano at 999-8340 or 999-8332.

For those who want to be better prepared for the trip, and for those who cannot retrace Columbus' journey in person, Massano has organized a course which meets Tuesdays from 6:30 to 8:30 p.m. January 14th - March 17th. Other ex-

"Without advance proper planning, the complications involved in the succession process of a closely-held or family business can be endless", stated SBDC Director Clyde Mitchell. Topics to be covered include: Buy-Sell and Redemption Agreements; disability business planning; key-man retention and buy-in arrangements; owner retirement planning; probate avoidance; tax minimization, and more.

Seminar leader is Attorney Susan E. Doyle, who has specialized in estate and business planning for closely-held corporations for over ten years. She has also worked as Financial Planner, Business Manager and Economic Analyst prior to practicing law in both Massachusetts and Rhode Island.

THE CRIMSON HARVEST

Plymouth County Cooperative Extension Nutrition Specialist Liz O'Donoghue reports her telephone is ringing off "the hook" with requests and questions about cranberries. Fresh, luscious, ruby red cranberries are now in the marketplace. Tart and tangy cranberries add a zesty taste to meals and holiday entertaining. Although the fresh cranberry season lasts a few months, you can enjoy the nutritional goodness of them all year round. Fresh cranberries freeze easily; simply wrap in a plastic bag and freeze up to a year. Clean but DO NOT WASH before freezing. To use frozen cranberries, rinse and use as fresh. DO NOT THAW FIRST.

Energy value - 100 grams of 3.5 ounces fresh cranberries has 26 calories; 100 grams or 3.5 ounces fresh cranberry sauce has 125 calories.

A traditional local favorite recipe:

CRANBERRY ORANGE RELISH

2 cups cranberries, 1 whole orange, 7/8 cup sugar.

Pick over and wash cranberries. Cut orange, remove seeds. Put cranberries and orange through food chopper. Add sugar, mix thoroughly. Let stand several hours before using.

If you are making sauces or jellied cranberry do not double recipe. Recipes for jelly making ware chemically designed for small quantities.

Cooperative Extension has a video tape available for loan on "The Crimson Harvest", a documentary which details the growth of the cranberry industry for over 100 years. This video was produced by the Cape Cod Cranberry Growers Association. For more information on food preservation, food safety or information on specific nutrition needs contact Liz O'Donog-

Any parents or member of the community who would like to have input into our planning for special education should call the Director of Special Education at 748-2192.

who are so afflicted. It is sponsored at UMass Dartmouth by the university's Counseling Center (999-8650 for further information).

While campus professionals, friends and family members of college-age persons are the target audience, the organizers say the teleconference will be of interest to the general public as well.

According to NAMI, this teleconference differs from most suicide prevention programs because it focuses on what scientists currently know about why some people commit or attempt to commit suicide. Leading psychiatrists who have studied the underlying causes of suicide will discuss what they have learned and will suggest ways in which scientific findings can be incorporated into campus education programs.

NAMI reports that 30,000 or more Americans die of suicide every year, as many as die from diabetes and liver disease. The teleconference will include early warning signs of the psychiatric disorders in the highest risk categories, and present treatment

5 Year Driving Licenses

REGISTRY OF MOTOR VEHICLES

Effective November 1, 1991 the Massachusetts Registry of Motor Vehicles will begin to issue 5 year new and renewal licenses. According to Registrar of Motor Vehicles Jerold a Gnazzo, the new policy of extending driver's licenses from four to five years would dramatically reduce the number of people going to the Registry to renew their license. "With the extension of licenses from four years to five years we anticipate 200,000 or more fewer people going to Registry offices which should result in shorter lines at the Registry counters."

Massachusetts is not alone in extending new and renewal licenses for 5 years. At the present, 7 states have begun to issue 5 year licenses. It is expected more states will also be switching from 4 years to 5 years.

The annual fees will remain unchanged. For example, the automobile driver's license fee for four years is $35.00 or $8.75 per year. The addition of one year will be $8.75.

Swimming for Arthritics

The Arthritis Foundation YMCA Aquatic Program, a program co-developed by the Arthritis Foundation and the YMCA of the USA, will be offered starting November 4th.

The Arthritis Foundation YMCA Aquatic Program is a recreational series of gentle activities in the pool and is open to anyone with arthritis. The program is designed to help relieve the pain and stiffness caused by arthritis while providing a fun, social opportunity. It is not necessary to know how to swim. Trained personnel conduct the sessions.

The program is being co-sponsored by the Greater New Bedford YMCA. Sessions will be held every Monday, Wednesday and Friday from 12:30 to 1:00 p.m. for 7 weeks.

Pre-registration is necessary and enrollment is limited. Registration for members began October 21st, and will begin October 28th for the general public. For further

Barrier Beach Field Study

Barrier beaches are constantly changing. Shaped by the forces of waves, wind, and weather, these conditions make a unique habitat for plants and animals. Join Lloyd Center staff member Sharon Wichman as she discusses how physical forces shape the beach as well as how beach inhabitants manage to live in this environment. The field study will also provide the opportunity to participate in activities developed through the coastal field study programs which the Lloyd Center teaches to area students. The barrier beach field study will be conducted at Barney's Joy on October 26th and will last from 10:00 a.m. until 2:00 p.m. Participants are urged to bring a lunch and liquid refreshments for the day.

The fee for the field study is $10. for Lloyd Center members, $15. for non-members, and $8.00 for children under 12. Please pre-register by calling the Lloyd Center at 990-0505.

Other events the Lloyd Center will be conducting include the Lloyd Center workday on October 26th, a rocks and minerals course on November 3rd, and a course on making wreaths from local plants on November 10th. For more information on these or any other programs call the Lloyd Center, 990-0505.

Wetlands Workshop
